### Our Origin Story

Twin Beans began in 2010 when Paul purchased his first micro-batch roaster, and he began selling freshly roasted coffee beans at the Farmer's Market. Twin Beans has proudly served the community ethically sourced, freshly roasted, and deliciously brewed coffees from all around the world for ten years!

All of our coffee beans are meticulously roasted in-house by Paul and Sara with their passion, creativity, and curiosity. Every handcrafted drink is made with carefully-chosen ingredients. We use local organic milk, house made sauces and syrups from a small Oregon-based family business, and of course our house roasted beans! It is truly our pride and our pleasure to have the opportunity to share our passion with you.
